EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Ken Moore on 6/19/06.

Please amend claims 1, 6, 7 as attached.

REASONS FOR ALLOWANCE

Independent claims 1, 6, and 7 recite:

Calculating a difference value between a size of the compressed digital sample data and a size of reference data formed by digitizing and compressing a reference sample object in the same manner as the sample object is processed;

Identifying which of a plurality of predetermined numerical ranges the difference value corresponds to in order to determine whether a defect exists

The above features, as explicitly recited, and in combination with the other elements of the claim are neither disclosed nor suggested by the nearest prior art of the record.

Prior arts Hill et al. (5471239) and Montgomery (2003/0095686) discloses detecting a difference by comparing the size between two compressed images. However, he does not disclose determining whether a defect exists.

Maeda et al (6169282) discloses a next process determining method for defect detection but does not disclose comparing the file size between to images.
